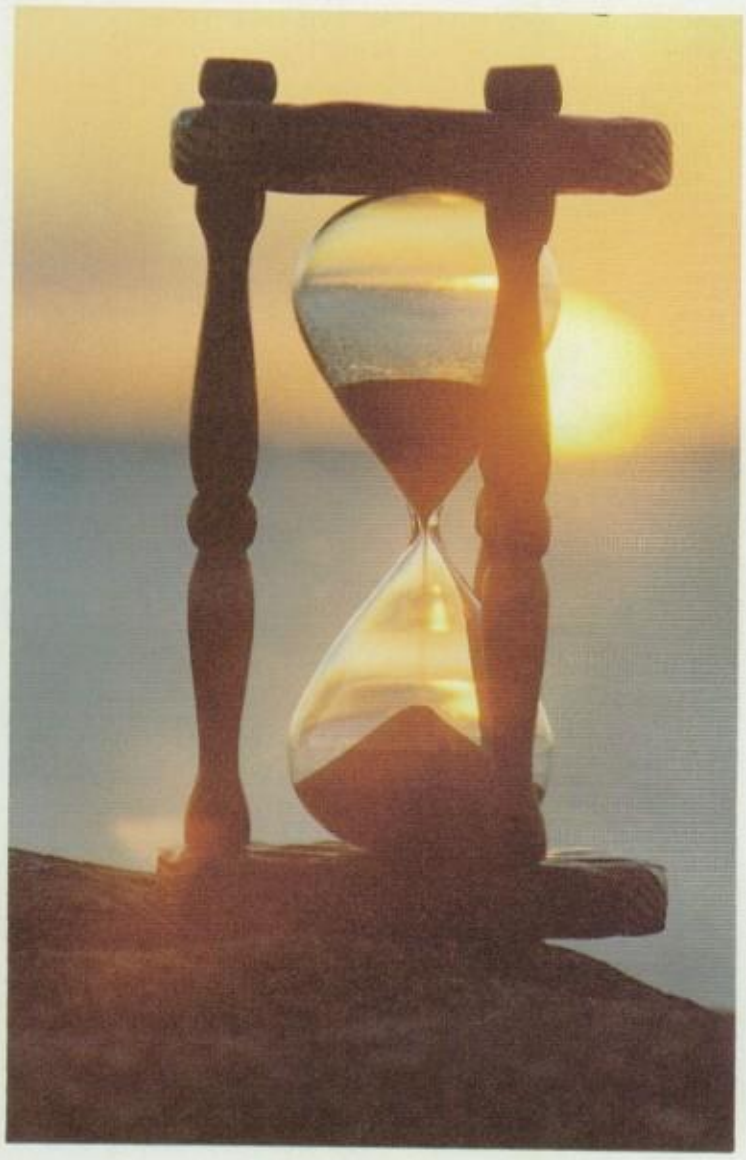
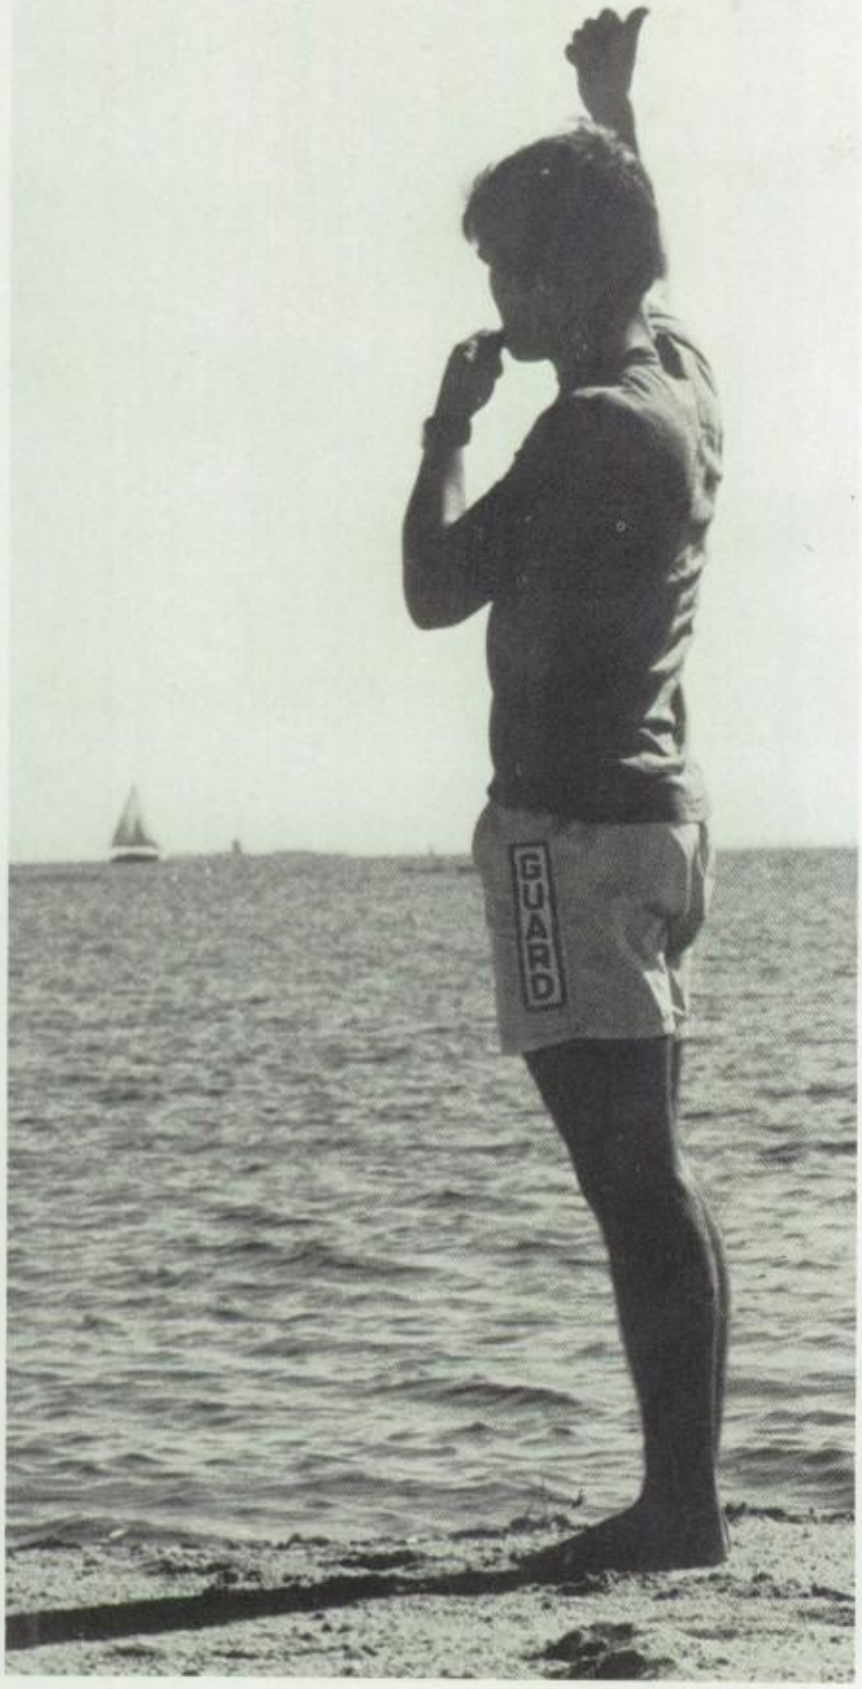
We began
each uncertain
of the future.



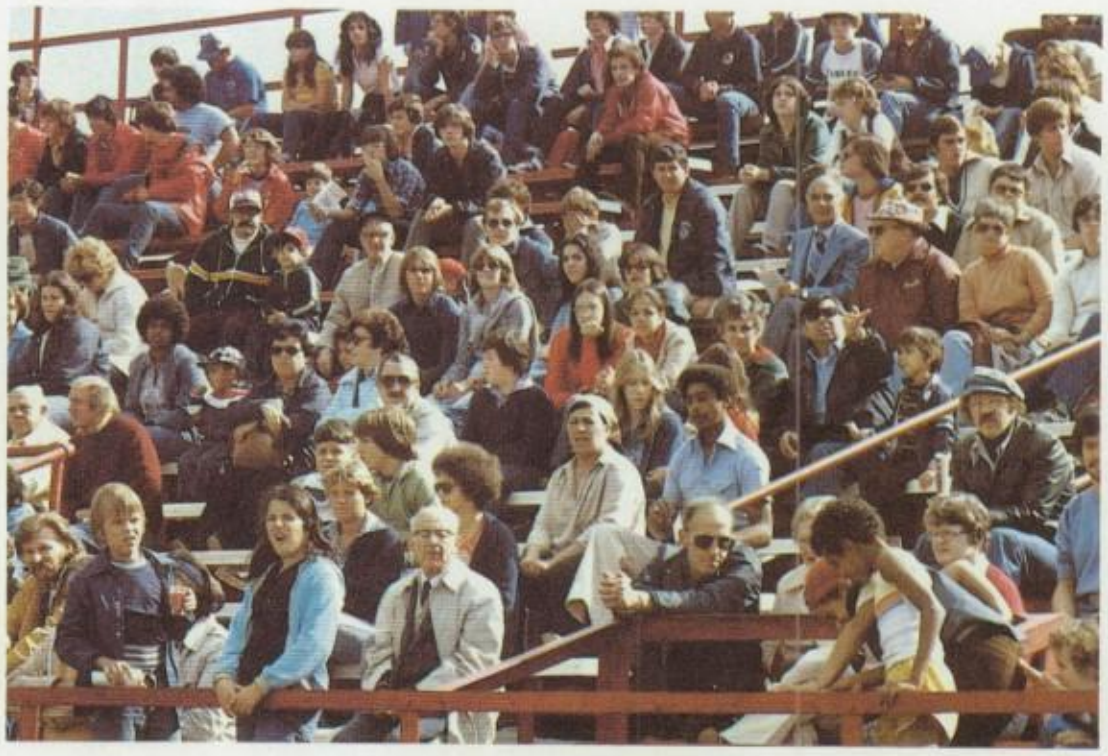
There were expectations and pressures,

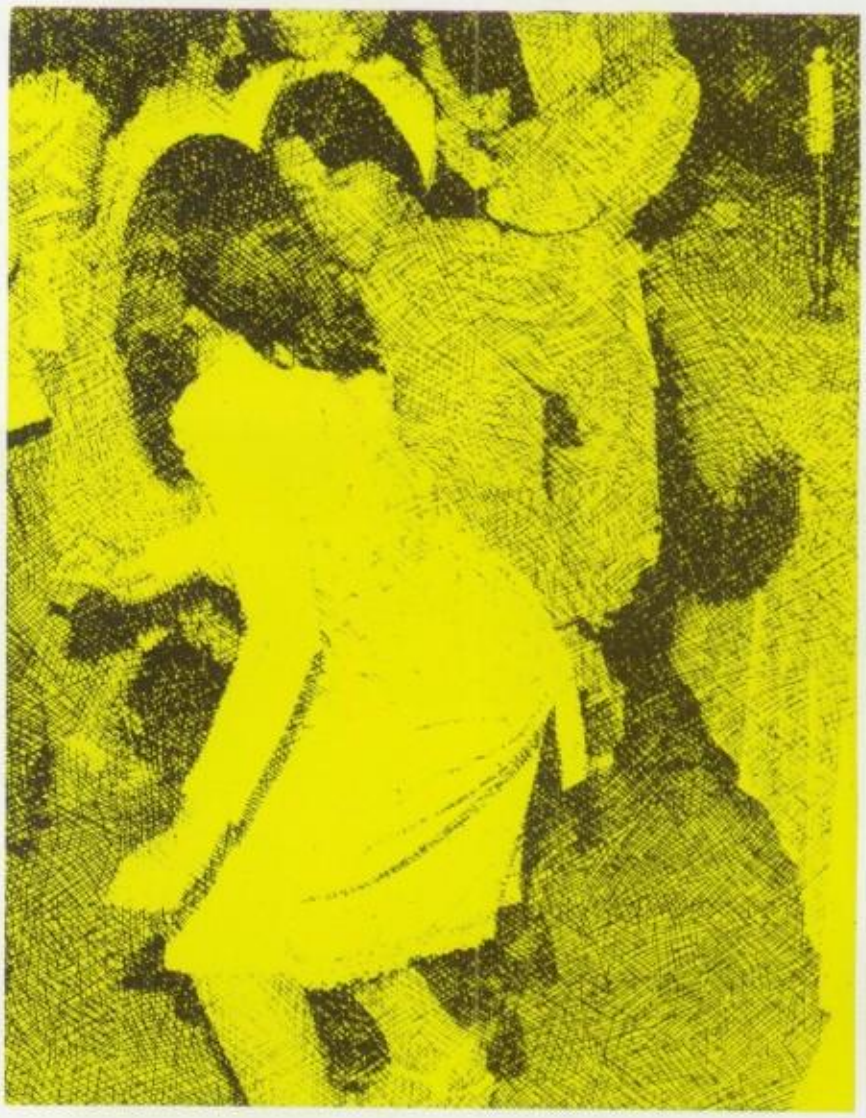
But new friendships eased the pains.



We worked,

laughed,



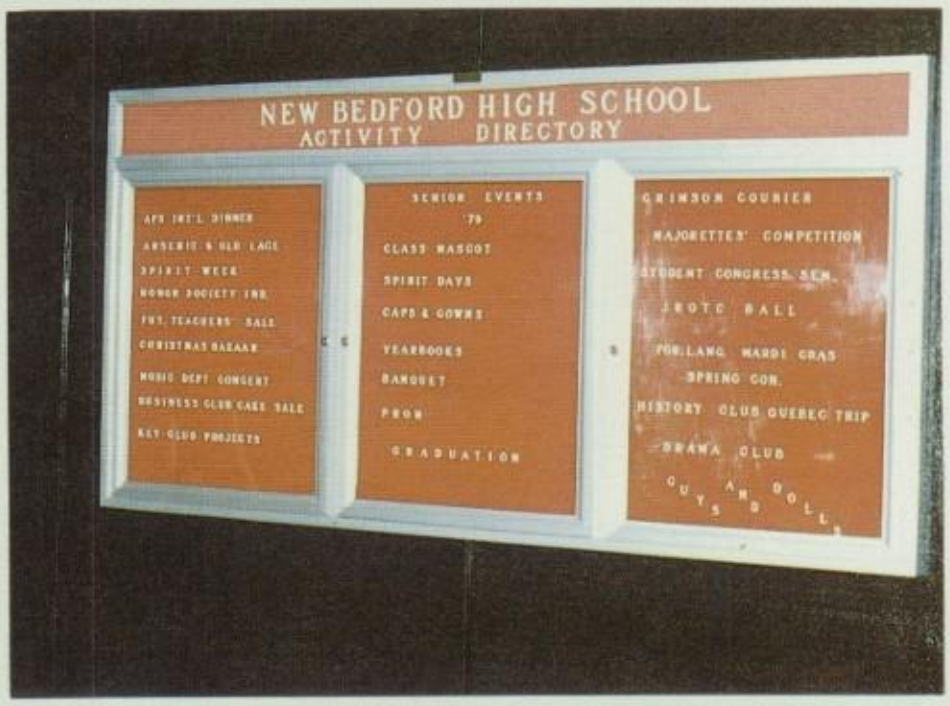


and enjoyed.

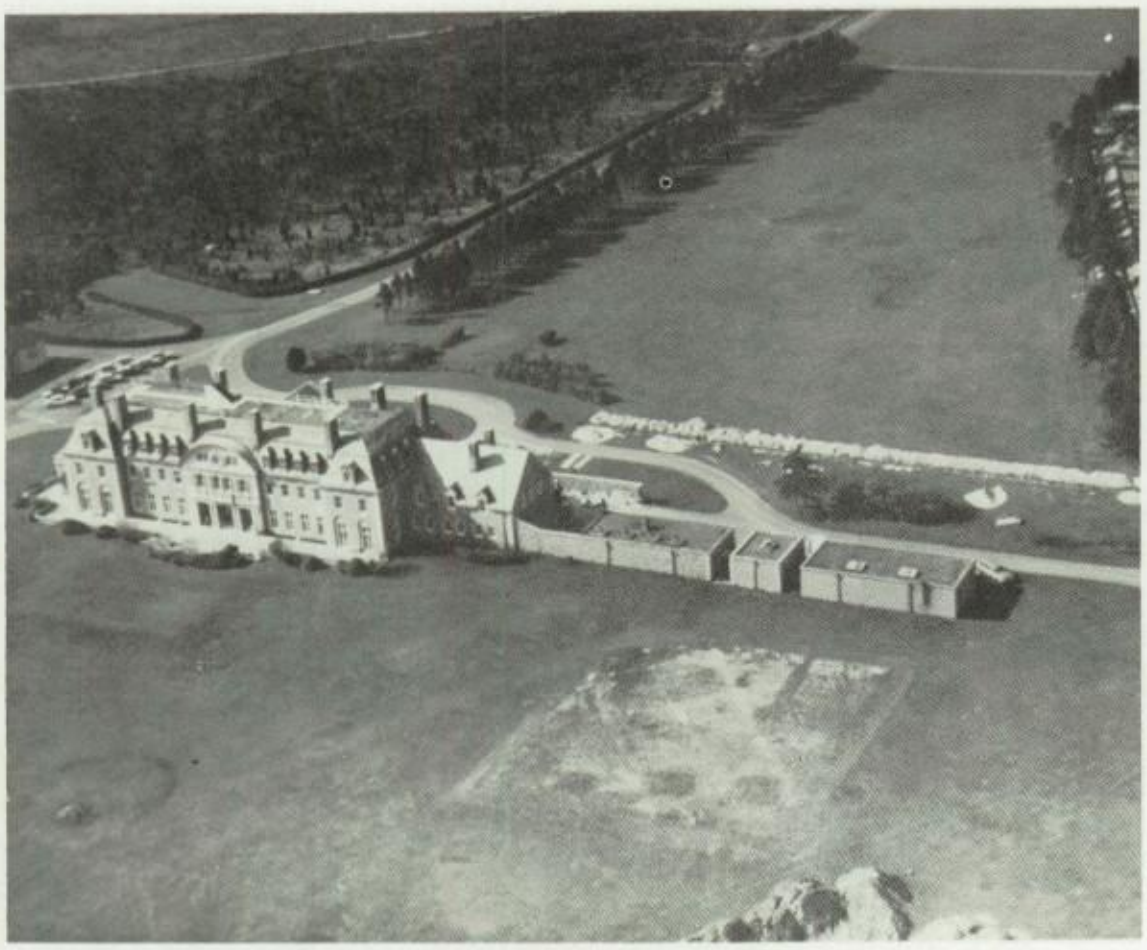
Together we learned
of life and
its phases.

Then all too soon
it was behind us.

Only memories remained of a time forever gone.



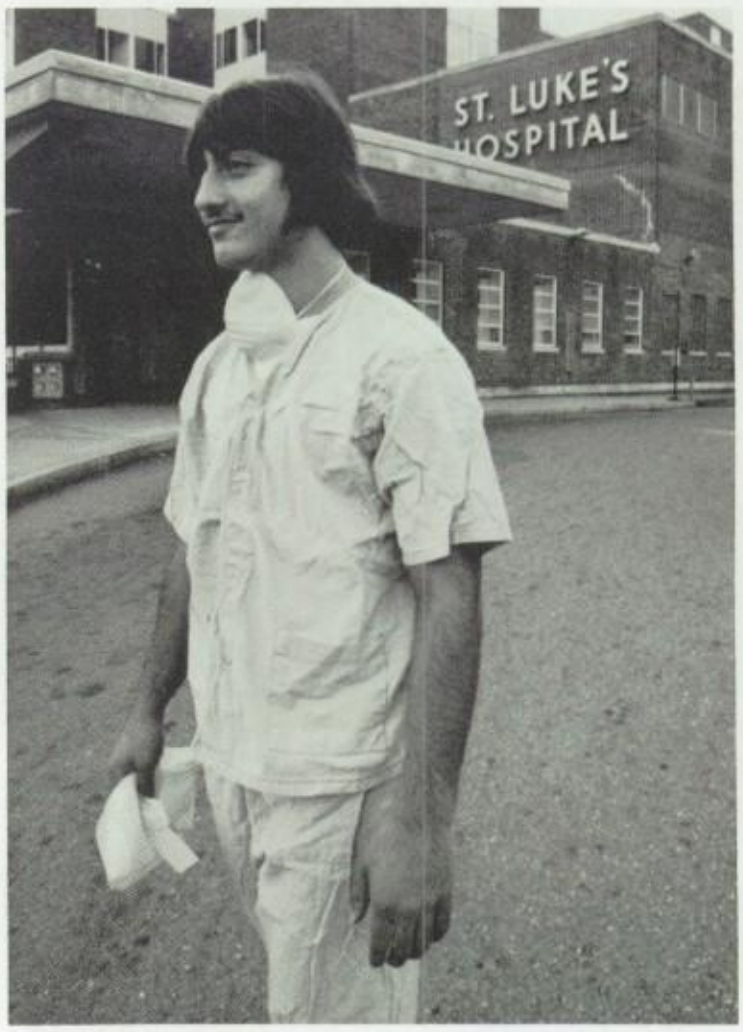
We set forth prepared to confront new hopes,

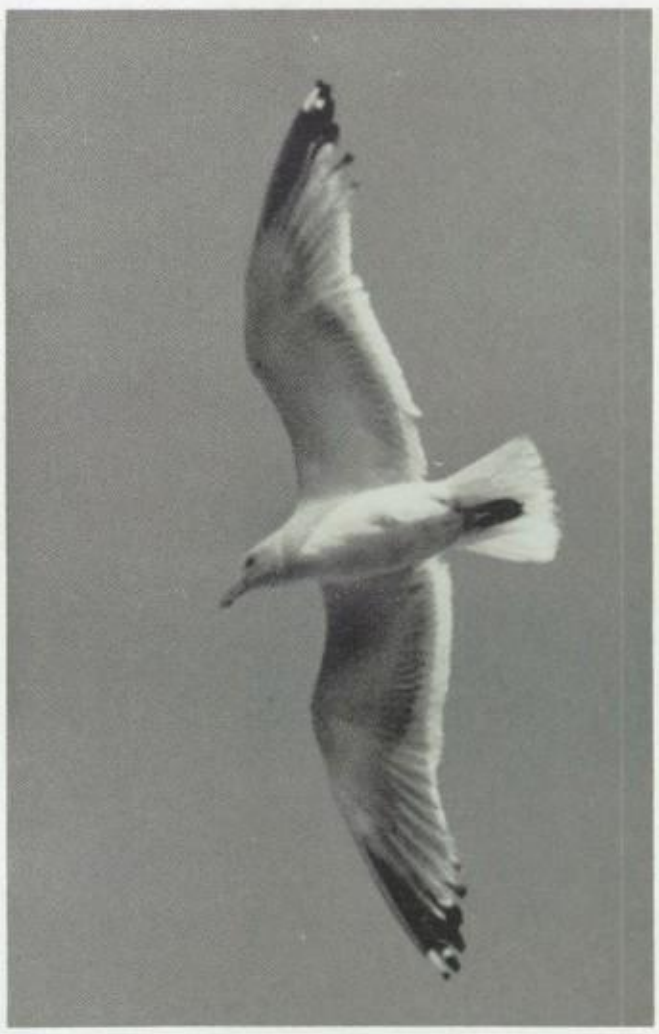


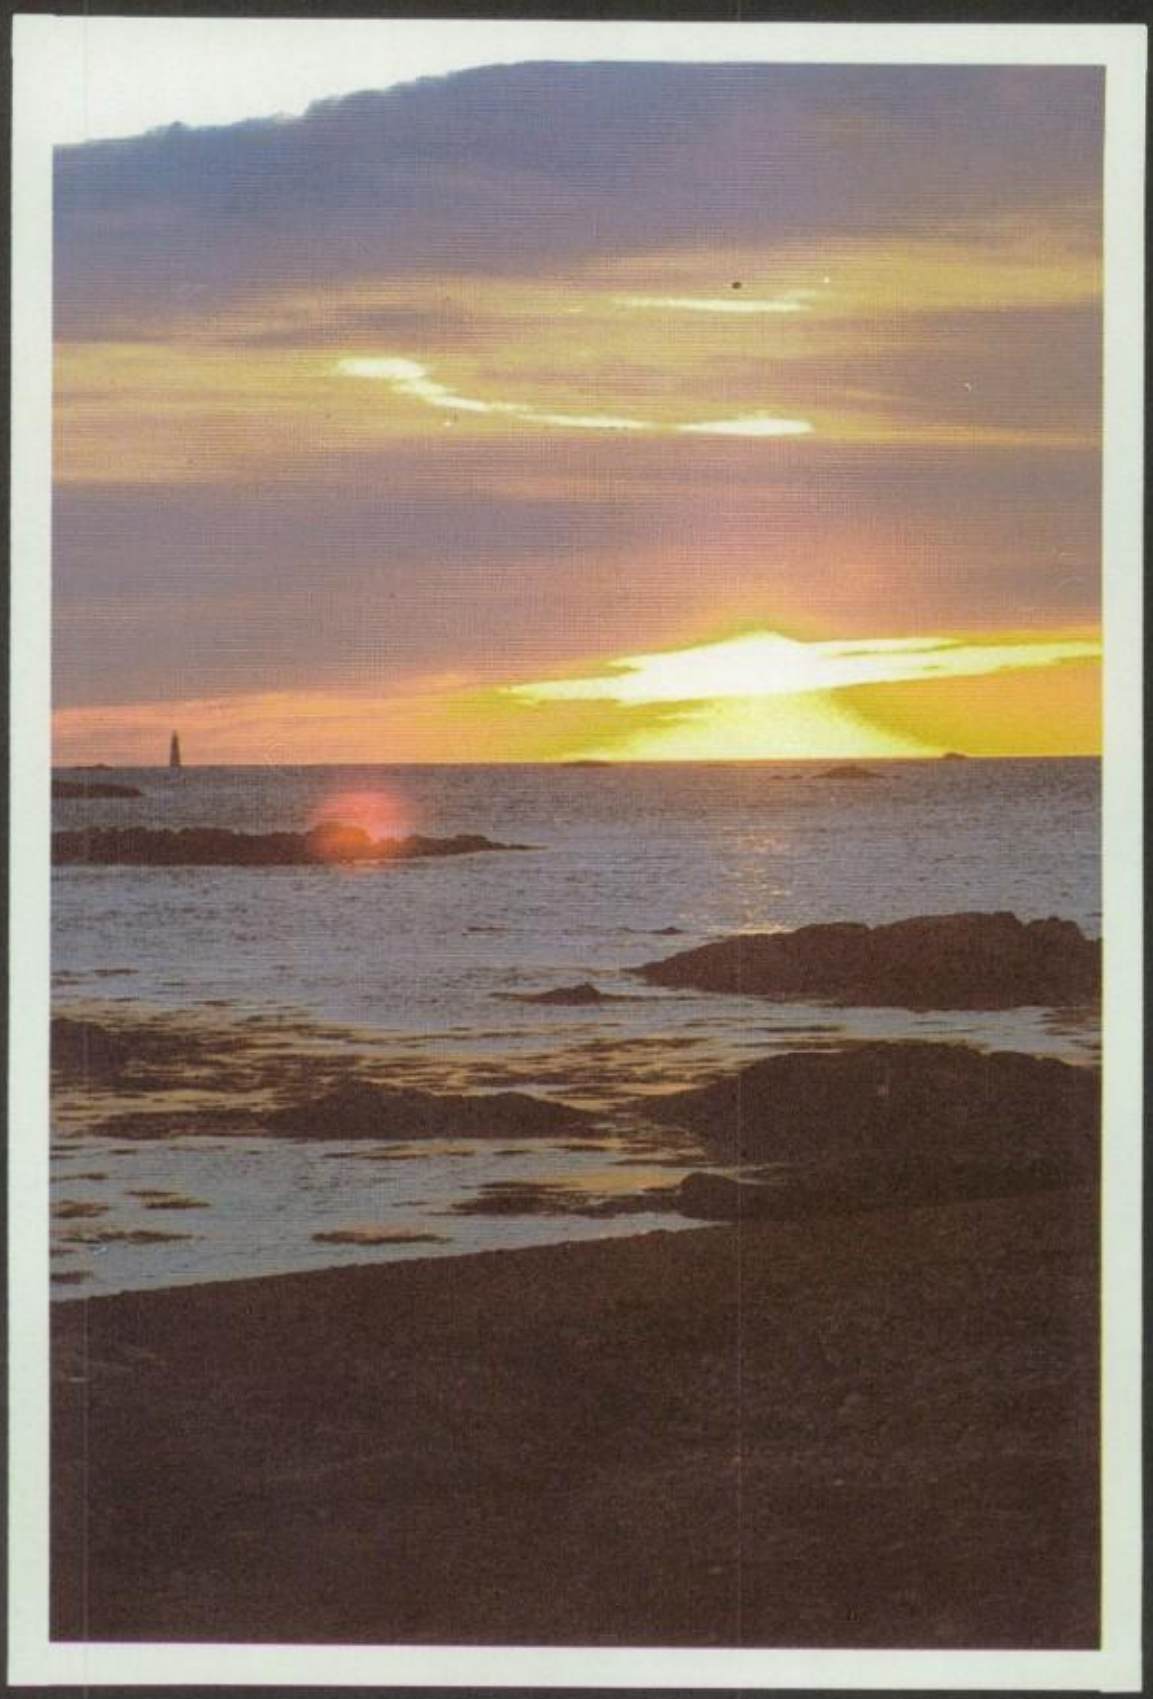
chal-

lenges,

and successes







richer from our shared experiences.

afs

Dear Veronique,

When we first found that you were coming to our school, we thought that the differences between our customs and yours would be great. But when you arrived during the summer, it became apparent that the differences would not be so great after all.

Though your language and culture were new to us, we soon discovered that essentially you experienced the same emotions, ideas, and opinions that we did: you enjoyed football games, joined the volleyball team, and became involved in the events going on around you. You were suddenly no longer a visitor, but a part of N.B.H.S.

Next fall, we will all be going in different directions, and your departure has given us a preview of the emptiness we will feel at losing each friend. It has also shown us that, even though you are no longer with us in the United States, warm feelings for you, our Swiss friend, will always remain.

Affectionately,
The Class of '79

The Road goes ever on and on
Down from the door where it began.
Now far ahead the Road has gone
And I must follow, if I can,
Pursuing it with eager feet,
Until it joins some larger way
Where many paths and errands meet.
And whither then? I cannot say.

Passages from the log of the Crimson

September 9, 1978 - Set sail at 7:48 A.M. Both skies and seas favorable, in general, crew seems to be in "high" spirits.

October 1, 1978 - No major conflicts first few weeks at sea; senior crew, however, is becoming very annoyed at the incompetence of the younger crew members.

November 20, 1978 - Attempted mutiny this morning; protest due to fact that use of stimulants prohibited on board. Code 533 put into effect. All crew members confined to quarters and officers ordered to patrol the deck.

November 23, 1978 - Vessel spotted in the west; upon coming closer, revealed to be warship Durfee. We loaded our guns and fired upon her twenty-six times. Due to our superior strength, she was forced to surrender without firing a shot.

March 19, 1979 - Weather inclement past three months. Crew confined below deck except for performance of necessary duties.

April 2, 1979 - Crew has requested permission to have four-day period of entertainment at next port-of-call to alleviate boredom.

May 6, 1979 - Dinner and ball to be held for senior crew for their patience on our long voyage.

June 16, 1979 - Upon reaching the end of our lengthy journey, the Captain would like to wish good luck to the younger crew and bid farewell to the senior crew.

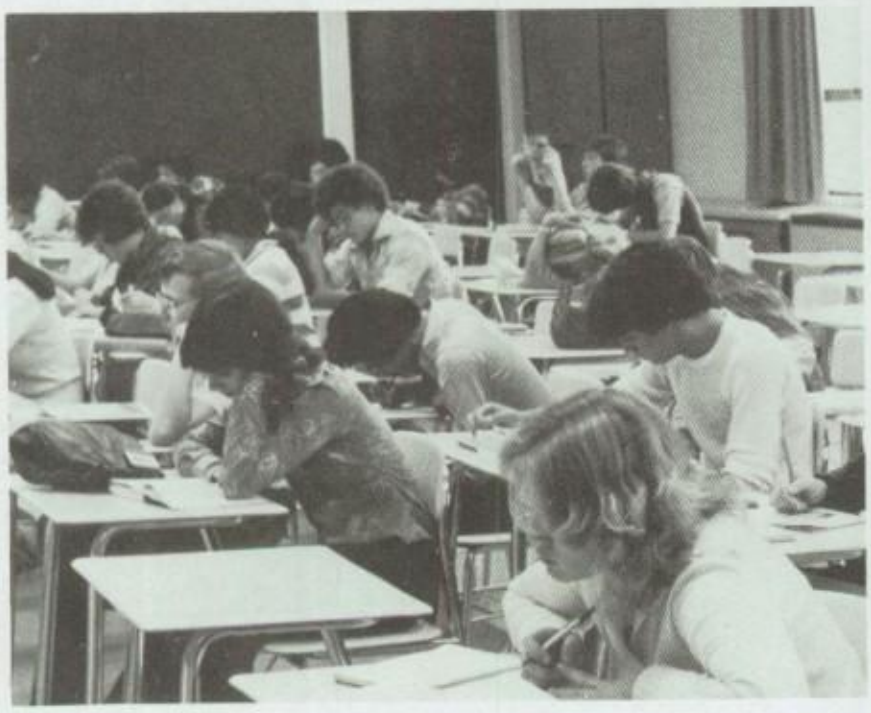
SENIOR



Jo Ann '79
NB

As Editor-in-Chief of the Crimson Log of '79, I cannot leave without expressing my thanks to every editor and staff member. Despite the great pressure and endless hours of work that will go unrecognized, I hope that the sense of accomplishment attained is self-rewarding.

We all should be grateful, though, to the talents of Mrs. Roberta Sawyer, our yearbook advisor, Mr. Arnie Lohmann, our representative from Taylor Publishing Company, and Mr. Joe Geoffroy, our Dodge-Murphy Studio photographer, for without their combined efforts, this publication could not have been completed.

I do wish that this yearbook will serve in the future as a reflection of your high school years,

Steve Kates
